CAN YOU SPOT THE 5 DIFFERENCES?

NOT-SO-FUN FACT

Sea turtles feed on jellyfish. When plastic is thrown in the water, the turtles mistake the plastic for jellyfish and eat the plastic instead.

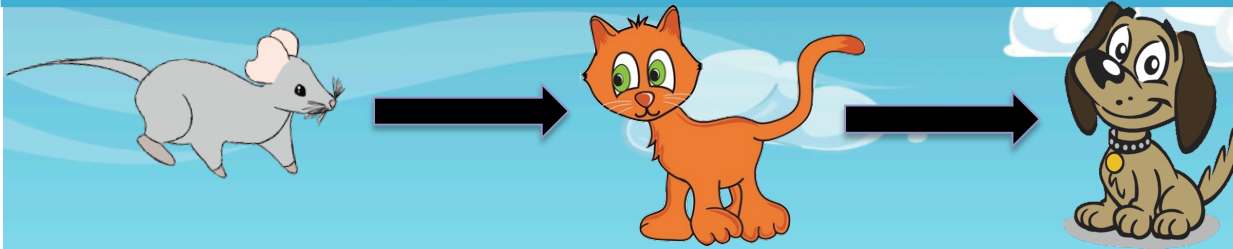

WHAT CAN YOU DO?

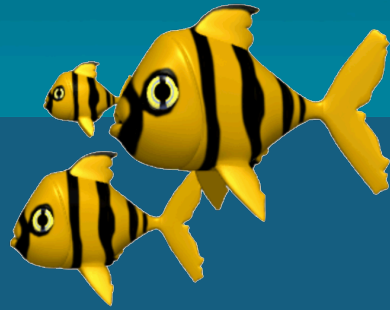

- 1) Do not throw your garbage into the ocean.
- 2) Spread the message to your family and friends.
- 3) Tell everyone in your school to tell their families as well.
- 4) If you see anyone polluting, tell them to stop and explain why.
