

*National Geographic Student Expeditions*

1st group photograph

Underwater photograph

The resort

# Tulamben

Orientation, learnt Balinese practice of free diving, learnt light photography, and snorkelled

My name in light!

# Pemuteran

Created fish nurseries (bio-rock structures), conducted reef-checks, met field expert, Tierney Thys, scuba-dived, organised beach clean-ups, visited the turtle nursery, and received metal straws.

Our bio-rock structure

Diving on Menjengen island

Welding my name onto the structure

Bleached anemone

Beach clean up

Art made from the collected garbage

Baby sea turtle going to sea

Canyoning

# Green Camp Ubud

Planting saplings

Climbed coconut trees, went canyoning, learnt to mud-fight, learnt about conservation and sustainability, visited the green-camp school, and planted saplings

Coconut  
tree  
climbing

Art at the Green School made from

Post a competitive mud-fight

# Medwei Beach : Surfing

My first, successful wave...

Last night: Cultural night
